## Serialization Project Manager (m/f)

We at AET are driven by our mission to make pharmaceutical products of the highest quality affordable for everybody. Among our 400 employees some of the brightest talents in the industry develop, register, produce and market the latest generics.

We are a family owned business and believe in entrepreneurship and flat hierarchies. That enables us to act quickly on the needs of our global clients as well as to changing market conditions.

With well over 50 years of experience we are a pioneer and leading company in the generics industry. We have a track record of changing industry standards and continuously entering new markets to fuel our growth.

Your expertise and commitment can make a difference to patients all over the world. Join us at our global headquarters in Hamburg (Fulltime 38,5 h/week)

### YOUR RESPONSIBILITIES

- Support the implementation and overview the operation of serialization processes for AET
- Responsible for compliant documentation in relation to relevant regulations (i.e., 2011/62/EU, EU 2016/161, GAMP5, Annex 11, 21 CR 820 etc.)
- Coordinate and align requirements from all stakeholders (IT, QA, Supply Chain, Sales, etc.) and translate them into serialization processes
- General project management relating to organization, documentation, and controlling
- Support audit preparations
- Keep up to date with international track & trace regulations
- Responsible for the integration of customers and suppliers regarding the serialization process
- Support quality related topics such as validation, change management, and business continuity

### YOUR SKILLS & QUALIFICATIONS

- Several years experience in the pharmaceutical industry (preferably university degree in Pharmacy or a related field)
- Familiar with international pharmaceutical and quality regulations and best practices (FMD, 2011/62/EU, EU 2016/161, GAMP5, Annex 11, 21 CFR 820 etc.)
- Knowledge of international track and trace regulations (DSCSA, China, Russia, South Korea, Brazil, etc.)
- Experience in leading cross functional project teams
- Experience in QA and IT-QM topics such as validation, periodic reviews and change management
- Knowledge and understanding of track and trace software is an asset (Level 5-2)
- High motivation, independent working and organization skills
- Excellent communications skills (in writing and verbally)
- Fluent language skills in English and German

### LOOK FORWARD TO

- working for an internationally established company in the pharmaceutical industry
- the opportunity to implement your own ideas in solving challenging tasks
- our modern offices in the buzzing heart of Hamburg right at the Elbe river
- a competitive salary and benefits package
